

WARRANTY CONCERNING STRUCTURES IN EARTHQUAKE ZONES

It is agreed and understood that otherwise subject to the terms, exclusions, clauses and conditions contained in the policy or endorsed thereon, the Company shall only indemnify the Insured for loss, damage or liability arising out of earthquake if the Insured proves that the earthquake risk was taken into account in design according to the official building codes valid for the site and that the qualities of material and workmanship and the dimensions on which the calculations were based were adhered to.
