

**COVERAGE OF EXPENSES FOR DETECTING LEAKS OCCURRED DURING SEWING PIPES**

It is understood and agreed that in addition to the terms, exclusions, clauses and conditions contained in the policy or endorsed thereon, and by means of the obligation of the payment of the extra premium by the Contracting party, the Company shall indemnify the Insured under this policy for:

1. Expenses to be paid for detecting leaks, once a hydrostatic test has been carried out (including rental expenses and special equipment, as well as the use and transportation cost thereof).
2. Works for moving earth in a ditch not affected, but necessary to detecting and repairing leaks, such as: excavation, uncovering of pipes and refilling of ditches.

This indemnity shall be paid, if:

1. The leak is caused by an accident that can be indemnified, or due to a defective workmanship in the site of construction,
2. The welded seams have been subject to an X ray test to \* % , duly repairing the eventual imperfections found in such occasion.

The indemnity shall be limited to a total sum of:

For testing section \*  
During the term of the policy \*

**COSTS FOR A DEFICIENT REPAIR OF WELDED SEAMS SHALL BE EXCLUDED.**

\*As per description in the specification of the policy.
