

ROBOTS AND ELECTRICAL COMMAND MACHINERY.

ADDITIONAL COVERAGE

It is understood and agreed that a valid service agreement that covers all electrical components of the insured items must be in place throughout the validity period of the Policy.

The aforementioned agreement must include:

- a) Safety checks.
- b) Preventive maintenance.
- c) Repair or adjustment of damage or faults resulting from the normal operation or ageing of the machinery, for example, repair or replacement of modules, sections, assemblies or electrical components.

MAINTENANCE WORK IS EXCLUDED.
